Quick Access to Your Family Insights Dashboard

Dear Parent/Guardian,

Welcome back! We've partnered with your child's school, which has begun using DreamBox Learning Math, a rigorous and highly adaptive math curriculum that students access online. It meets the educational needs of each individual learner, adjusting and re-adjusting in the moment as they engage in a fun learning environment.

Initial Placement

Students are assessed by using the data collected from their completed lessons. To ensure accurate assessment, encourage your child to complete lessons, even if they find them too difficult or too easy, rather than abandoning them mid-lesson.

Family Insights Dashboard

The DreamBox Learning® Math Family Insights Dashboard enables meaningful school and home connections that raise awareness of the curriculum, strategies, and progress of your child in real-time, so teachers and family learning guardians can work together for your child's success. Dashboard alerts surface where attention is needed and when to congratulate success.

Families receive information that highlights important learning milestones and educational resources that encourage learning and extend conversations about math beyond the classroom to fully support and encourage deeper understanding and comprehension. Learn more about the reports available in your Dashboard at:
www.dreambox.com/reporting/family-reports

Tips for home usage

1. Allow for 15 to 20 minute sessions throughout the week.
2. Encourage completion of every lesson that is started. Mistakes are OK. Your child should not shy away from incorrect answers, as they help find the right lesson to build learning progress.
3. We know it's difficult, but please resist the urge to help with answers so that your child doesn't move ahead before he or she is truly ready.

Student Access

Your child can access DreamBox Learning Math 24 hours a day, 7 days a week from a desktop, laptop, or iPad by logging in through your District portal. This link can be found inside your child's Blackboard account, under the eCART tab. Click the Digital Ecosystem Core Tools menu. Many schools have also added a link on their school website.

To access DreamBox from an iPad, search for DreamBox Math in the App Store to download both the DreamBox Math Green and DreamBox Math Blue apps. Once you have downloaded both apps, log into your child's profile through the District portal on Safari. You may also download the Clever app from the App store, and use it to sign into your child's profile. Please do not try to log directly from the DreamBox apps. Once logged into your child's profile, click on the DreamBox icon, and your child will automatically sign into DreamBox and will be prompted to launch the DreamBox apps.

To set up your free Family Insights Dashboard, follow these steps:

1. Go to your child's District portal. This can be found inside your child's Blackboard account, under the eCART tab. Click Digital Ecosystem Core Tools menu.
2. Have your child login to his or her profile.
 - Username:** Your child's student ID number
 - Password:** Your child's unique FCPS network password
3. Click Setup Parent Access at the bottom of the page.
4. Follow the instructions to create a login (email) and password.
5. Read the Terms of Use and Privacy Policy.
6. Click Submit.

To log into your Family Insights Dashboard (after it is set up):

1. Go to <http://play.dreambox.com>.
2. Enter your email and password.
3. To see student progress, click the Family Dashboard button.

For problems logging into your District's portal, please contact your District for assistance.
